

INTERNATIONAL COUNCIL ON LARGE ELECTRIC SYSTEMS – CIGRE CROATIAN
NATIONAL COMMITTEE

15th SYMPOSIUM ON POWER SYSTEM MANAGEMENT
Croatia, Cavtat, 6 – 9 November 2022

INSTRUCTIONS FOR AUTHORS - PAPERS PRESENTATIONS

Dear authors,

Papers of the 15th Symposium on Power System Management are divided into two main topics, TOPIC 1 and TOPIC 2, each consisted of several preferential subtopics. As a large number of papers is expected, you are kindly asked to prepare a brief presentation of your paper focused on answering the questions. Recounting of the papers, due to the reasons mentioned above, will not be allowed.

The time after your presentation is reserved for a discussion, e.g., Q&As. The Symposium activities will start exactly on time according to the Symposium timetable. The timetable and the list of all papers will be available on HRO CIGRE's website.

You will be provided with a laptop and a projector (resolution 1024x768). Your presentation must be in the .ppt format, 5 to 10 slides long. Use of the private laptops is not allowed. To avoid confusion, please name the file of your presentation by the number of your paper (e.g., B5-04.ppt or B5-04.pps). Also, please put your name and the title of your paper on the first slide of the presentation. All presentations must be made on the template available on the website of the 15th Symposium.

To make the activities of the Symposium fluent, please send your presentations to the SC Chairman or to the Topic Facilitator no later than **October 31, 2022**.

Topic Facilitators and SC Chairmen will create a time frame of all presentations and will send you estimated time of your presentation.

Best regards,

HRO CIGRE General Secretary
Božidar Filipović-Grčić, PhD
